

# Company View

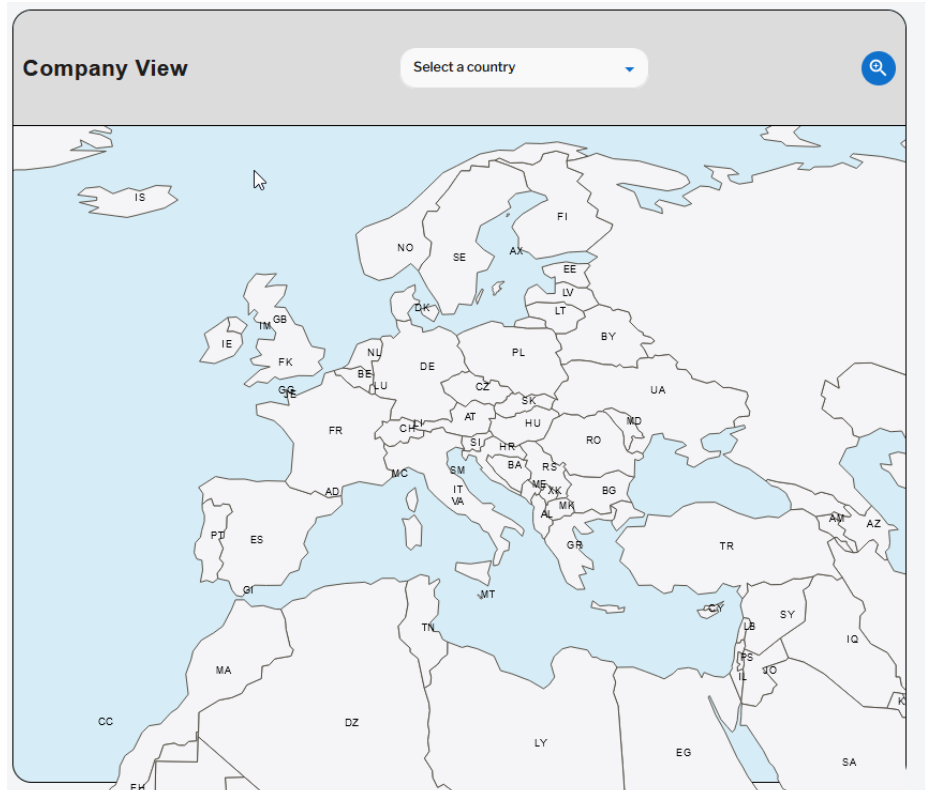

## Summary

The Company View shows a Map of the World.

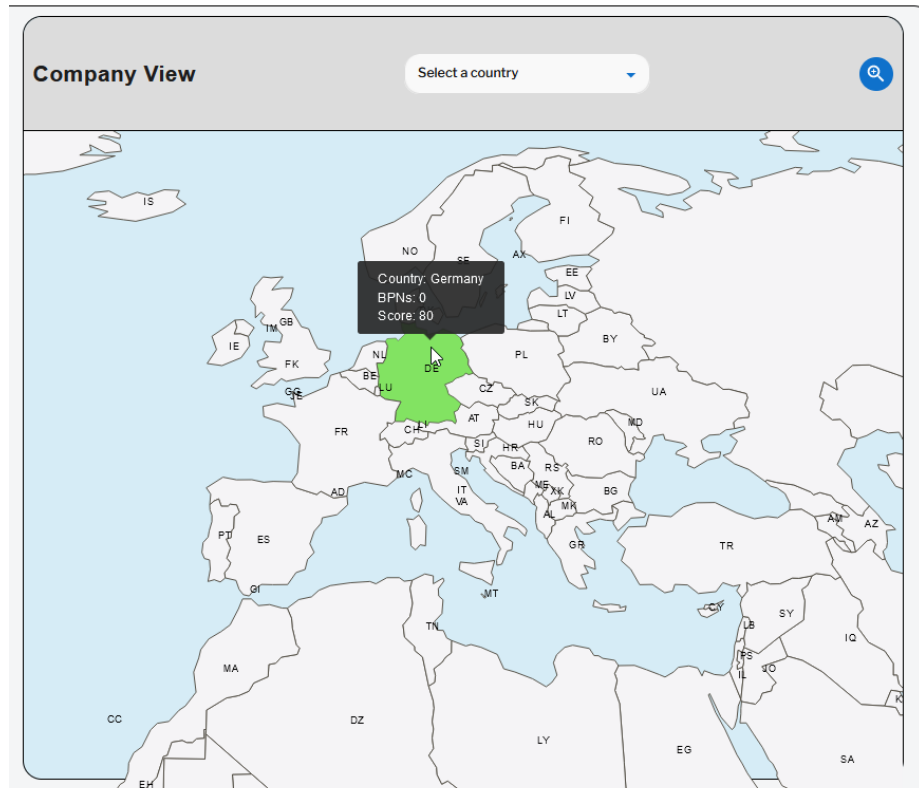

The Map is similar to the World Map.

In this Map the User can also zoom in to reveal more Information:

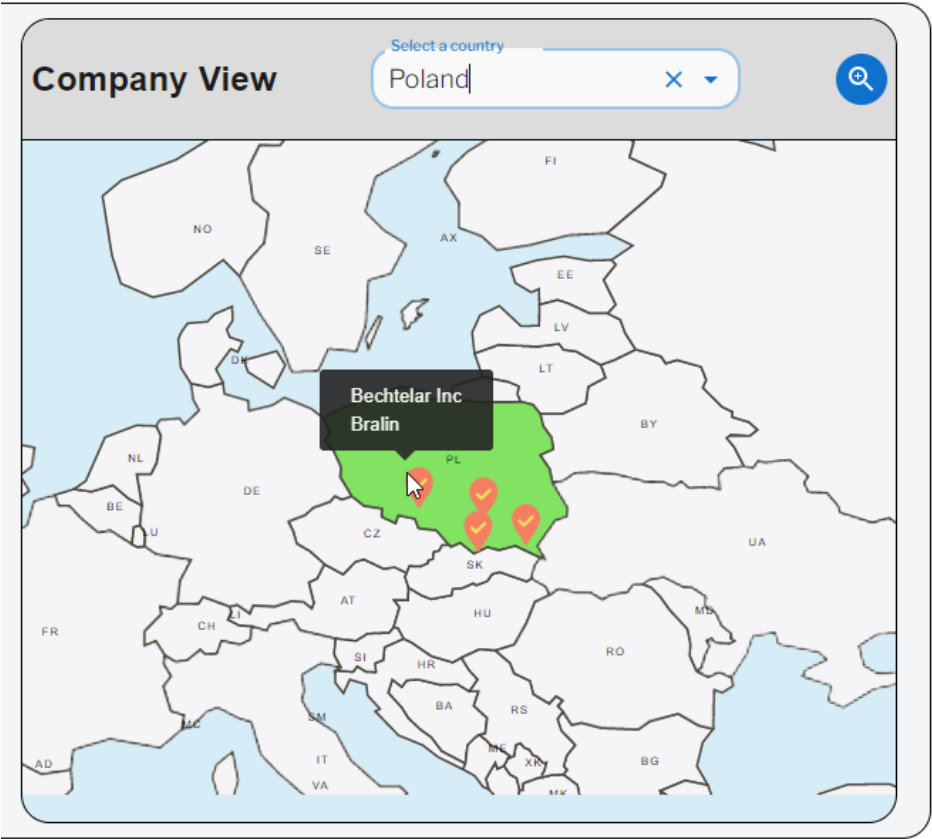

The User can also hover over one Country at a time.

In the Company view we not only show the Name of the Country we also show how many Business Partners which are available to you are located in this country.

We also show the Score in the Hover since the COuntries are not being colored when a Rating is selected.

New in this View is the Option to Filter for a country

After selecting a country the Map zooms to the country and shows the Markers for each Business Partner in this Country

Also the Table below both Maps is filtered for the selected country.

Number of Filtered Business Partners: (4) [Export to csv](#) 🔍
