# World Map

Summmary

The Map shows an interactive Map of the World for the User

- The User can zoom into the Map
- After the first Zoom step the country Codes are shown with the ISO 3166-1 alpha-2 Codes

- Hovering over the Codes shows the Complete Country Name

- Upon zooming in the User can see Markers in countries.
 Those markers show the Location of the available Business Partners

Hovering over the Marker reveils the Company Name in that Locatio

- The User has the Option to Expand the Map with the Help of the Icon in the top right corner
  After Expanding the World Map the User can find a Legend in the bottom left corner which represents the Ranges
  The functionalities remain in the expanded Mode
