# Rating Range Setter

Summmary

The Ranges define which color is shown for each Score

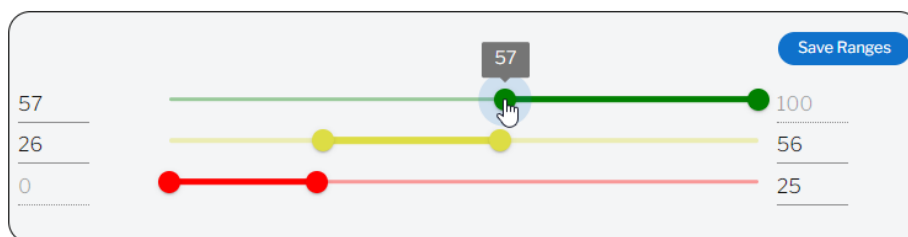

The Standard values are:

Green: 100 - 71
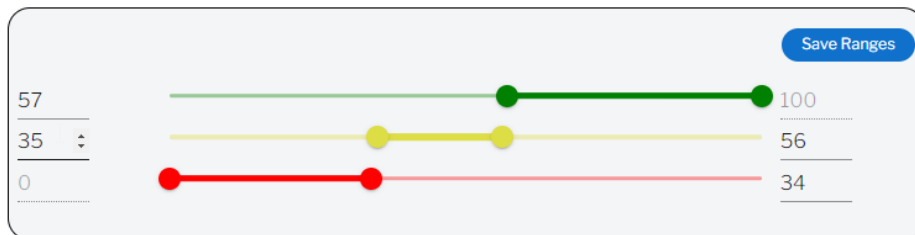

Yellow: 70 - 31

Red: 30 - 0

How to set Ranges

The User can slide the endpoint Points of the Strings by dragging them per Mouse hold.

The other option is by inputing the Value into the Text fields next to the Sliders and confirming by either clicking out of the box or pressing ente
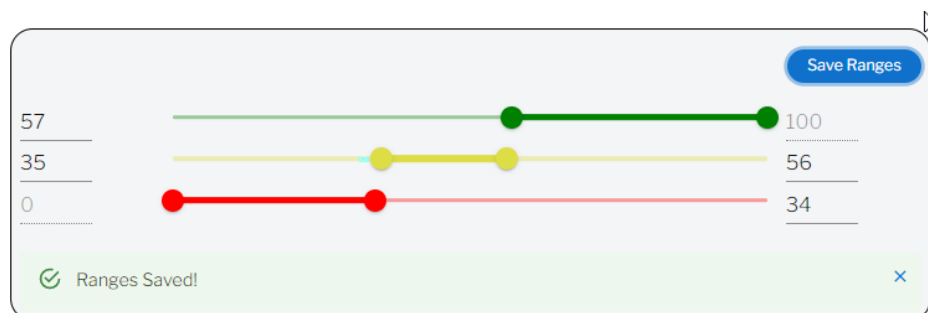

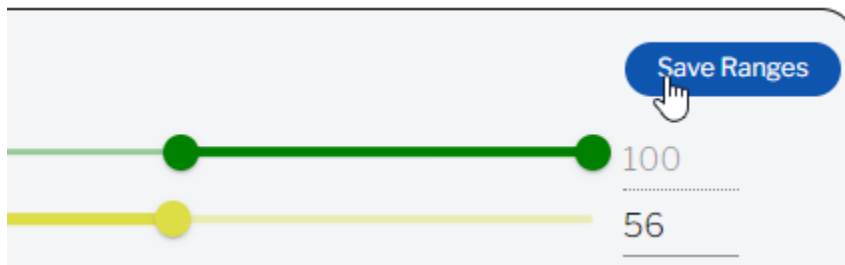

The Values automatically adjust to the changes. There is not an option to have overlapping Values.

How To Save individual Ranges

To save the Ranges the User can click on 'Save Ranges' they are then automatically set to the currently selected values.

When the User Returns at a later date the Saved Ranges are automatically set.
